Fame Has Really Changed the Pope

By Jessica Roy

Angry actor Pope Francis.

Nobody is immune to the dark side of fame — not even His Holiness the pope. After becoming an [unofficial member of Leonardo DiCaprio's Pussy Posse](#) and signing on to star in his first movie role, Pope Francis is now embroiled in his first scandal caught on tape, a celebrity rite of passage.

While meeting with devotees in Mexico, one admirer yanked so hard on the pope's arm that he fell onto a child in a wheelchair. Pope Francis grew visibly angry, scolding the admirer in Italian infinitely better than Leo DiCaprio's. Later, the pope slid on a pair of shades, muttered insincerely, "No pictures," and jetted off in his black SUV to the Nice Guy for lunch with his agent.
