How we work with you

We are a nationwide contract review service dedicated exclusively to physicians. With this hyper specialization, we are intimately familiar with the needs of physicians in academic, hospital based, and private practice settings. Whether working full time or part time, as an employee or independent contractor, a foreign medical graduate on a J-1 or H-1-B, physicians have unique concerns based on their schedules and the services they provide. Physician's Contract Counsel has handpicked the national's leading board-certified healthcare attorneys and vetted them to ensure we only work with attorneys that keenly understand physicians, the challenges they face, and the contracts that govern how they practice. In fact, many of our attorneys are married to physicians!

Once you upload your contract it will be assigned to the attorney best qualified to review and revise your contract, as well as advise you of each and every problematic provision and potential pitfall in the contract you are considering signing. We maintain completely open lines of communication, with every contract review you have 24/7 access to your attorney, even well after the contract is signed. All emails are returned within 24 hours and calls can be scheduled whenever needed. Our primary goal is to ensure at the end of the day each client thoroughly understands what is in his or her contract, and the implications of terms included in the contract and excluded from the contract! We work on a flat fee basis, regardless of how much time it takes to get the right contract for you and will work with you until you are completely satisfied with the services you receive!

SELECT

Contract Drafting

In addition to reviewing contracts, our attorneys can also draft them! We offer flat fee employment contract and independent contractor agreement drafting services for a flat fee of \$1550. Our attorneys have extensive experience handling the issues most commonly contested in physician contracts, such as compensation, termination, assignment of employment duties, restrictive covenants, and paid time off.

What clients say about us!

”

First, Roderick did an excellent job. I was very pleased with his work. He was knowledgeable, prompt, and saw things through to the end. Overall just a great experience, he has earned my trust. I have recommended him to my colleagues and they had great experiences too!
